

ORBIS ConstructionHUB

What is the ConstructionHUB?

- ◆ A unified platform to manage and qualify construction projects
- ◆ Integrated address verification and duplicate search maintain a high data quality
- ◆ Can be integrated with every data provider and every CRM

What are my benefits in joining?

- ◆ You can offer your service as an easy to implement interface
- ◆ You will get recommended as partner for specific countries or regions
- ◆ You get a participation fee per customer

Why choose push over pull?

- ◆ Because the customer stays on your site and keeps access licences
- ◆ Our webservice is easy to implement and we take any payload you sent
- ◆ We cover the transformation of your data in our datastructure

Benefits for your clients

One platform to value construction projects worth transferring to CRM

Faster integration of new data provider due to standardized interfaces

Single point of contact and enhancement & Integrated data quality tools

Benefit of data providers already in the system to open up new markets

International Dataprovider like:

- Barbour ABI
- ibau
- Building Radar
- etc.
